Clarisonic - Opal Sonic Infusion System

Product ID: 39388

You've seen the benefits of our sonic cleansing - softer, smoother skin - now experience the benefits of sonic infusion. The Clarisonic Opal Sonic Infusion System combines our new sonic infusion technology with our Anti-Aging Sea Serum for results as beautiful as they are dramatic.

Opal's soothing sonic action gently infuses the serum into the epidermis to help refresh and renew the appearance of delicate skin around your eye area.

Benefits (as reported in our clinical studies)

- An immediate reduction in the appearance of fine lines and wrinkles; results last for hours and build over time
- Younger looking skin
- Skin appears refreshed and energized
- Skin appears brighter
- Skin appears healthier
- Improved skin texture
- Noticeably firmer skin
- Increased skin hydration

Anti-Aging Sea Serum

Dr. Robb Akridge, PhD, optimized this serum for the dynamics of sonic infusion. Using his immunology expertise to promote skin health, he employed a multi-layered approach using marine extracts and botanicals to hydrate, firm, tighten and protect.

Our serum is gentle enough for daily use and is paraben free.

All Sales Final - No Returns or Exchanges. If you receive a defective product you may return it to the manufacturer for repair or replacement

Usage:

USING THE CLARISONIC OPAL

Prior to the first use, charge the Opal for 24 hours. See Charging. For best results, use the Clarisonic Sonic Skin Cleansing System to remove dirt and oil, prepping the skin for Sonic Infusion. Then treat your skin with Opal.

Upon first use, you may need to push the dispensing button multiple times to start the dispenser.

1. Remove the dispenser cap (containing the serum) from the Sonic Infuser. (Magnetic attach and detach.)
 2. Place the nozzle (located on the inside surface of the cap) slightly above the applicator tip.
 3. With firm pressure, slowly press the dispensing button to dispense the the serum onto the applicator tip. Fill the applicator tip to about the level shown (about the size of a small pea). Adjust the volume to suit as necessary.
 4. Place the applicator tip flat to the skin on the crow's feet area of the eye.
 5. To activate Opal, press and release the power button located on the side of the Sonic Infuser.
 6. Follow the rim of the bone outlining the eye area to apply the serum using light pressure and small, overlapping, circular strokes. Opal will turn off after 30 seconds.
 7. Repeat steps 2 through 6 to treat the other eye area.
 8. After use gently blot the applicator tip with a cotton swab or tissue and replace the dispenser cap for storage. If desired, it is safe to moisten a tissue or swab with alcohol and gently blot the soft applicator tip.
- Do not immerse the Opal or the applicator tip, or place under running water.

Clarisonic - Plus Sonic Skin Cleansing System (White)

Product ID: 38028

The Clarisonic Skin Care brush is an innovative approach to facial cleansing that utilizes a flexible, dual brush design and oscillating movements to loosen pores and clarify skin. Repetitive motions stimulate circulation in skin and washes away six times more dirt and residue than facial cleansing by hand, for a rejuvenated, fresh feel and look.

The Clarisonic Plus Set includes:
 Clarisonic PLUS with three speeds
 International Charging cradle for worldwide use.
 Sensitive Brush Head
 3 trial size facial cleansers
 For the Body:
 Spot Therapy Brush Head
 Trial size Refining Skin Polish

All Sales Final - No Returns or Exchanges. If you receive a defective product you may return it to the manufacturer for repair or replacement

Retail Price: \$270.00

Usage:

- Prior to the first use, charge the Clarisonic handle for 24 hours.
 - Remove eye makeup by hand.
 - Wet your skin and the brush head with warm water.
 - Liberal apply cleanser to your skin or to the brush head.
 - Push the on/off button to turn your Clarisonic on and gently move the brush using a small circular motion, beginning on the forehead, then moving to the nose/chin area and the cheeks as the T-TIMER prompts.
 - Pressing too hard will impede the motion of the brush and reduce its effectiveness.
 - The outer brushes are designed to contain any residual mist from the brush oscillation, so be sure to hold the brush head flush to your skin.
 - The Clarisonic handle is waterproof and may be used in the shower or bathtub.
 - For best results, replace your Clarisonic brush head every 3-4 months.
 - Get a separate brush head for each user.
 - Using the Clarisonic to remove makeup may stain the bristles, but will not affect performance.
 - If discoloration occurs, clean the brush head with soap and water.
- Spot Therapy Brush Head:**
- Remove the facial brush from your Clarisonic handle and attach the Spot Therapy Brush Head with a simple twist on/twist off motion.
 - The Clarisonic automatically senses the Spot Therapy Brush Head and shifts to "Spot" mode.
 - With the Spot Therapy Brush Head attached, the T-TIMER runs for 3 minutes with no beeps.
 - Wet the Spot Therapy Brush Head.
 - Apply Refining Skin Polish directly to the brush, beginning with a silver-dollar size amount, applying more as needed.
 - Press the On/Off button and gently massage arms, legs, décolleté, etc., in a circular motion.
 - Press the Speed button to move between constant and pulse modes.
 - Spot Therapy Brush Head is not for use on the face.
 - Rinse the skin and brush head thoroughly.

- With the Spot Therapy Brush Head the Clarisonic holds a charge for about 20 minutes of use.
- Place the handle in the Charging Cradle to recharge.
