Retail Price: \$47.00

Usage:

You can use Deception with or without makeup. If you use foundation, apply that first, then take a dab of Deception and spread a thin layer just on your fine lines and wrinkles. It's not spackle... you don't have to fill in the crevices! Try to apply a thin film of cream in the direction of the wrinkle. A quick swipe will do the trick, no need to rub it in. The cream will disappear in a moment. (If after several seconds you still see a white cream, you put on too much. Take some off.) The microprisms in Deception will scatter light and hide the shadows. Without shadows, no one can see the wrinkles. It's an optical illusion and it WORKS!
