Vivierskin - C E Peptides

Product ID: 26565

Concentrated combination treatment maximizes results. Formulated only with the highest grade pharmaceutical ingredients including L-Ascorbic Acid (Vitamin C), Vitamin E and Kinerol, a unique concentrated complex of peptides.

Retail Price: \$139.50

Usage:

Apply once or twice daily to clean, dry skin before any make-up or creams. Use on face, neck, chest and backs of hands as desired. For best results, use in combination with other Vivierskin products.

Vivierskin - C+E High Potency Serum

Product ID: 26563

C+E High Potency Serum helps repair and protect skin against the appearance of visible signs of aging. This super-antioxidant treatment contains Vitamin-C IDS (L-Ascorbic Acid) that acts quickly by being absorbed topically into the skin and deposited in the spaces between cells where its action is optimal and controlled. Together, Vitamin C and Vitamin E form a synergistic antioxidant combination that provides remarkable protection from photoaging. This enhanced protection against damaging UVA/UVB rays helps prevent premature signs of aging and stimulates collagen production. Scientific evidence proves that this combination is more effective at neutralizing the chemical reaction that causes premature wrinkling and other signs of ageing.

Retail Price: \$128.00

Usage:

- * Morning and night, place a few drops on fingertips and gently massage onto cheeks, chin, forehead, neck, chest and backs of hands as desired
- * Follow with VivierSkin Daily Moisturizing Cream

Vivierskin - Cream Body Scrub

Vivierskin - Kine-C Dual-Action Skin Firming Serum

Product ID: 26562

Kin -C Dual-Action Skin Firming Serum with its unique enriched Vitamin-C IDS works as an advanced hydration program against the appearance of visible signs of aging. Vitamin C is a potent anti-oxidant that helps to neutralize and eliminate the detrimental effects of free radicals. Vitamin C also stimulates collagen formation topically, adding elasticity and strength that will make your skin feel smooth by filling out fine lines. Working in combination with Vitamin C is Kinetin, a plant enzyme and one of Mother Nature's most effective botanical growth factors. Kinetin is known to improve moisture retention while reducing the appearance of fine lines and smoothing skin texture with no irritation. As a result of this natural partnership, skin becomes softer, smoother and younger-looking. Within weeks, fine lines, wrinkles and age spots will diminish, giving your skin a more youthful look.

Vivierskin - Refining Cellulite Body Lotion

Product ID: 26580

Polish tone and firm. Breaks down lipids in the fat cells of the adipose tissue. Visibly reduces the appearance of cellulite. Reduces the formation of excess fatty deposits. Improves the drainage and water distribution throughout tissues and restores skin firmness and tone.

The skin naturally contains millions of adipocytes, cells that are designed to store fats. These cells can swell up to 60 times their initial size. They deform the fibrous network and become trapped, forming stubborn fatty deposits which are difficult to break down. Due to the resulting compression, circulation is impeded. Deep down tissues are infiltrated, sometimes causing discomfort. Cellulite begins to take hold. On the surface, the skin appears to be dimpled and

mottled.

Retail Price: \$77.50

Our Price: \$65.60

Usage:

Apply generously twice daily, or as directed by a skin care specialist, by carefully massaging into problem areas. For perfect skin texture as well as improved ingredient absorption use the VivierSkin Cream Body Scrub and the VivierSkin Vitamin-C IDS High Potency Serum 20 prior to application.
